

We would like to inform our readers that in the article Gündoğan, E. (2011). National and International Change and the Case of Istanbul and Turkey. *Köz-gazdaság – Review of Economic Theory and Policy*, 6(2), 145–159., an omission occurred in relation to section 2, titled “Keynesian and Post-Keynesian Urban Spaces According to David Harvey”. Due to an oversight, the text does not indicate that the content of this section closely refers to Gündoğan (2009, pp. 164–170)¹.
